COURSE DESCRIPTION

Advances in the medical management of cancer have led to earlier detection, improved treatments, and increased survival rates. However, research shows that most cancer survivors experience long-term physical, psychosocial, and cognitive impairments during and following cancer treatment. Rehabilitation professionals are increasingly challenged to provide supportive cancer services that address quality of life, cancer-related fatigue, neuropathy, musculoskeletal deficits, and integumentary concerns.

This interactive course will discuss the latest evidence-based tools and strategies for the care of patients with diverse cancer types across the cancer continuum. Functional outcome measures and current reimbursement requirements from Medicare and private insurance companies will be addressed. Problem-based case studies and lab activities will enable participants to develop an effective therapy program for cancer survivors.

COURSE OBJECTIVES

Upon completion of this course, participants will be able to:

- Understand the pathology and medical management of various types of cancer
- Perform a thorough evaluation of the patient with cancer
- Select functional outcome measures and evidence based assessment tools
- Develop and progress a cancer rehabilitation plan to address cancer related side effects
- Understand current reimbursement mandates of federal and private insurance companies

FACULTY

Mary Calys, PT, DPT, CLT is the Director of Cancer Rehabilitation and Wellness at North Kansas City Hospital and has practiced oncologic physical therapy since 2005. She is devoted to improving the experience of cancer survivorship and participates as a board member for multiple local and national cancer organizations. She currently serves as the Public Relations Chair of the Oncology Section of the American Physical Therapy Association. Dr. Calys is an adjunct Clinical Professor in the Physical Therapy and Rehabilitation Science department at the University of Kansas Medical Center providing oncology rehabilitation curriculum.

Disclosure: Financial: Mary Calys receives a speaking fee from Education Resources, Inc. Non Financial: She has no non-financial relationships to disclose.
