COURSE DESCRIPTION

This beginner-intermediate course will focus on developmental care and therapeutic interventions in the NICU. It will focus on the infant's experience in the NICU, and how the neonatal therapist can best support these infants from the beginning. You will learn how to provide developmental support, optimize outcomes, reduce parental stress, and provide collaborative developmental care through implementing best practices on your unit. Special populations will include the very low birth weight infant, the late preterm, and the long term NICU infant.

COURSE OBJECTIVES

Upon completion of the course the participants will be able to:

- Discuss key elements of developmental care and neuroprotection for low birth weight and high risk infants in the NICU
- Incorporate developmental core measures and therapeutic strategies into the therapist's role, in the areas of handling, positioning, feeding, the environment, pain, and sleep from the earliest gestational age
- Develop strategies for implementing cue based feeding in the NICU
- Develop a resource for assessing developmental needs of the therapist's own NICU and discussion of specific projects to create change in the NICU

FACULTY

Lisa Kleinz, MA, SLP/L, CNT is a Speech Pathologist who has worked in level 3 NICUs for over 20 years. She has also served as a Developmental Care Specialist, working with staff and families to create change in the NICU. She has certifications in Newborn Individualized Developmental Care Assessment Program (NIDCAP), Developmental Care Designation (NANN), Infant Massage Instructor, and Lactation Specialist. She is a Certified Neonatal Therapist and an active member of National Association of Neonatal Therapists, in addition to being a committee Board member. Lisa received her bachelors degree from the University of Illinois and her masters degree from Indiana University. She has presented at NANT conference and Gravens conference. In addition, she provides frequent Developmental Care and NICU education in the Chicago area and is a Clinical Specialist for Dr. Brown's Medical.

Financial: Lisa Kleinz receives an honorarium from Education Resources, Inc. and Dr. Brown's Medical. Non financial: Lisa is a member of the National Association of Neonatal Therapists, a Board Member of NTNCB, and a member of NIDCAP Federation.

TESTIMONIALS

"I enjoyed this course so much and feel like I am walking away with a plan for my NICU. Lisa is an awesome instructor, patient for learning, and flexible to meet the needs of her class. I would definitely take another course offered by her and Education Resources."

Kimberly Jones

"This was an absolutely wonderful overview of successful interventions for all "developmental care specialists" in the NICU. It truly addresses all areas of taking care of our NICU babies and putting their needs at the forefront of our minds. I am excited about starting my work in a NICU. The course presenter Lisa was energetic and wonderful. The material was very practical. I would recommend this course to all. Thanks Lisa!"
