

Utilizing NDT in Pediatric Practice

Colleen Carey, DPT, C/NDT

Faculty

Colleen Carey, DPT, C/NDT is a dynamic speaker and expert in the fields of early intervention, therapeutic handling, and functional goal outcomes. Colleen has extensive experience with a variety of developmental disorders and coordination disorders including cerebral palsy and autism, and has worked in early intervention, school districts and rehabilitation centers. She supports families across cultural and ethnic barriers and is a passionate advocate for children and families. Colleen holds an active certification in NDT, is an accomplished Coordinator Instructor with NDTA, and serves in leadership roles within NDTA. She studied at Quinnipiac College, New York University, and Temple University with a focus on developmental disabilities. Colleen. She operates the Children's Therapy Center, a pediatric outpatient center in Ambler, PA. Disclosure: Financial: Ms. Carey receives a speaking fee from ERI. Non-Financial: Ms. Carey has no non-financial relationships to disclose.

About This Live Webinar

Begin your journey into the world of NDT or expand your current knowledge with this course that will enhance your knowledge to the benefits of using NDT to treat the child with neurologic impairments and other pediatric disorders. We will discuss the importance of practice of movement sequences and importance of integrating strategies into daily activities utilizing fun and practical ideas. Facilitation strategies for improved movement control and assessment of the primary impairments necessary to address in treatment will be presented utilizing didactic, video and lab format. A jointed rag doll is required for portions of the course to enable practice of handling strategies. This course is designed for the physical therapist, physical therapy assistants, occupational therapists and occupational therapist assistants. This course is attractive to clinicians who seek a better understanding of the NDT Practice Model and the use of handling and facilitation to enhance function. Course content will focus on basic concepts of theory, assessment, and treatment of the child with cerebral palsy and disorders of the neuromotor system.

Objectives

- ④ The participant will be able to identify NDT principles and theoretical assumptions
- ④ The participant will be able to identify principles of NDT facilitation to impact alignment, base of support and weight shift
- ④ The participant will be able to discuss differences between typical and atypical development
- ④ The participant will be able to discuss the relationship of the ICF model to the Contemporary NDTA ® Practice Model
- ④ The participant will be able to identify unique treatment strategies for trunk, upper extremity and lower extremity for the child with neuromotor impairments

Course Requirements:

Portions of the live seminar will include participant movement on the floor. Please consider computer and space set up to support learning. A jointed rag doll is required for portions of the course to enable practice of handling strategies.

5:25-5:45 pm Webinar Registration/Zoom Course Opens

5:45-6:45 pm NDT Practice Model (Principles of NDT)
Principles of Facilitation

6:45-7:45 pm Typical/Atypical Development

7:45-8:00 pm Break

8:00-8:30 pm LAB: Typical/Atypical Development

8:30-9:30 pm Touch, Key Points of Control, Alignment,
Base of Support, Weight Shift

Schedule – Day 2 5:25 pm – 9:30 pm EST (US)

5:25-5:45 pm Webinar Registration/Zoom Course Opens

5:45-6:45 pm VIDEO: Treatment demonstration

6:45-7:15 pm Treatment strategies to build function (with
dolls)-linked to treatment demo BREAKOUT

7:15-7:30 pm Break

7:30-8:30 pm Using the ICF Model as a Construct for NDT
Assessment

8:30-9:30 pm Goal Writing: How to Make Goals
Achievable and Carry Over Practice to Reach
the Participation Goals

Schedule – Day 3 5:25 pm – 9:00 pm EST (US)

5:25-5:45 pm Webinar Registration/Zoom Course Opens

5:45-7:15 pm VIDEO CASE ANALYSIS: Presentation of the
Child with Neurologic Impairment and
Problem Solving

7:15-7:30 pm Break

7:30-8:15 pm CASE TREATMENT PRESENTATION

8:15-9:00 pm GROUP PROBLEM SOLVING:
“I have a child...” BREAKOUT

Audience

This course is designed for PTs, PTAs, OTs, and OTAs and is attractive to clinicians who seek a better understanding of the NDT Practice Model and the use of handling and facilitation to enhance function. Course content will focus on concepts of theory, assessment, and treatment of the child with cerebral palsy and disorders of the neuromotor system.

ERI: Life-changing learning

You love what you do. Our courses remind you why. As a therapist, you change lives every day – and have your life changed in return. ERI is life-changing learning, for therapists by therapists.

The ERI Advantage:

- Techniques you'll use the next day
- Peers who share your passion
- Renowned faculty
- Evidence-based courses that improve outcomes
- 30 years of life-changing learning

Specialty Tracks throughout the lifespan – Neonatal, Pediatric, Adult, Geriatric

Each ERI specialty track is designed to make the most of your continuing education time, budget, and goals. Start your search with us and plan every course you'll take in 2022.

Visit educationresourcesinc.com for all of your 2022 courses.

ERI Rewards

Your ERI experience is more rewarding than ever.

- First Course Discount
- Bring a Friend Savings
- Group Discounts
- \$100 off your 4th Multi-day Course
- And more
